

# Congratulations to Our 2018 Ultimate Ladies in Business!

It's an important time for women in leadership, and there is no better moment to congratulate and honor the women who make this community great through their work and caring every day. These awards are decided by public vote, and this year, we saw our largest response yet – with more than 50,000 total votes!

Whether they serve a local non-profit, lead a growing local business or simply inspire others with their can-do attitude, these women make up another exciting class of Ladies in Business Winners! Thank you for serving this community with your intelligence, leadership and passion. We can't wait to see what you do next!
